PROFESSIONAL SUMMARY

Data Science and AI/ML undergraduate with a CGPA of 8.73/10 and a strong foundation in Python, C++, SQL, data analysis, and machine learning. Experienced with EDA, data visualization, statistical analysis, and databases using Pandas, NumPy, Scikit-learn, PostgreSQL, Power BI and Excel. Familiar with GCP, Microsoft Fabric, Git/GitHub, and Jupyter Notebook. Google Gemini Student Ambassador 2026, UK Patent Grantee, and Published Research Co-Author, seeking Data Science, AI/ML, and Software Engineering opportunities.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL

ML & Data Science: Scikit-learn, NumPy, Pandas, EDA, Statistics & Probability, Linear Algebra, Calculus

Deep Learning / GenAI: LangChain, RAG, FAISS

Data Visualization & BI: Power BI, Matplotlib, Seaborn, Excel (Pivot Tables, VLOOKUP)

Databases: PostgreSQL, SQL (CTEs, Window Functions, Subqueries, Joins, Aggregations)

Cloud & Tools: Google Cloud Platform (GCP), Microsoft Fabric, Git/GitHub, Jupyter Notebook, VS Code

EXPERIENCE

AI for Sustainability Virtual Intern — 1M1B x AICTE x IBM SkillsBuild

Jul 2026 – Present

- Gained hands-on exposure to Machine Learning, Large Language Models (LLMs), IBM Granite Models, RAG, and Agentic AI through guided learning, IBM Labs, and mentor-led sessions.
- Explored practical applications of AI in sustainability, including climate action, clean energy, waste reduction, biodiversity, and sustainable cities, while learning to develop AI-based solutions for real-world challenges.

Machine Learning & Data Science Virtual Intern — AICTE x EduSkills

Jun 2026 – Present

- Completed an 8-week Machine Learning & Data Science internship with practical experience in Python, NumPy, Pandas, Scikit-learn, SQL, NLP, Flask, and Power BI through structured training, assignments, and assessments
- Developed a Customer Sentiment Analysis capstone involving text classification, SQL-based data handling, Flask API integration, and Power BI dashboard reporting.

Google Gemini Student Ambassador 2026 (GID: 10362) — Google

Jun 2026 – Present

- Selected as one of Google's Gemini Ambassadors to drive Gemini API adoption and responsible-AI practices across university developer communities via hands-on Generative AI workshops.

AI/ML Virtual Intern — AICTE + EduSkills + Google for Developers

Jan 2026 – Mar 2026

- Completed a 10-week Google AI-ML internship with practical exposure to TensorFlow, neural networks, CNNs, computer vision, object detection, and image classification through structured technical modules and assessments.

PROJECTS

FIFA World Cup 2026 Match Predictor

Python, NumPy, SciPy, Streamlit

- Built a Dixon-Coles football prediction model with L-BFGS-B weighted maximum-likelihood optimization on 50,000+ historical matches, applying recency weighting and temporal train/test separation to prevent data leakage.
- Ran 10,000 Monte Carlo simulations of a 48-team tournament bracket to estimate progression probabilities; deployed as an interactive Streamlit app evaluated via accuracy, log-loss, and Brier score.

PDF Document Q&A Assistant (RAG)

Python, LangChain, Gemini API, FAISS, Streamlit

- Developed a Retrieval-Augmented Generation pipeline with document chunking, embeddings, and FAISS vector search to answer questions from uploaded technical PDFs with source references.

Restaurant Business Intelligence & SQL Analytics

SQL, Python, Pandas, Power BI

- Designed a SQL database analysis using CTEs, window functions, and joins to derive revenue and customer insights, then built an interactive Power BI dashboard for KPI tracking and segmentation.

RESEARCH & PATENT

Smart Nano-Robot for Autonomous Gene Editing — Published Co-Author

Mar 2025

- Co-authored a peer-reviewed paper on CRISPR-Cas9 gene editing via nanocarrier delivery; contributed the AI/ML section on deep learning models for nanoparticle composition prediction and CRISPR off-target site detection.
- UK Patent Grantee for the associated autonomous nano-robotic gene-editing mechanism (2025).

EDUCATION

B.Tech., Computer Science & Engineering (Data Analytics & AI/ML) — MediCaps University, Indore

2024 – 2028

CGPA: 8.73 / 10

CERTIFICATIONS

Microsoft Fabric Analytics Engineer Associate • Microsoft Azure AI Essentials • Google Cloud Data Analytics Certificate • SimpliLearn: Machine Learning with Python • Forage: TATA GenAI & Deloitte Data Analytics Job Simulations
